

Florian Wolf, MD, MBA, EBIR, EBCR, FCIRSE

Associate Professor of Radiology
Vice Director of the Division of Cardiovascular and Interventional Radiology
Department of Biomedical Imaging and Image-Guided Therapy
Medical University of Vienna
Waehringer Guertel 18-20
A-1090 Vienna/Austria
phone: +43 676 3173881
email: florian.wolf@meduniwien.ac.at

Curriculum Vitae:

1975	born in Vienna, Austria
1986-1994	High school, Schottengymnasium, Vienna
1994-2000	University of Vienna, Faculty of Medicine
1997-1999	Research assistant at the Department of Experimental and Functional Pathology, Medical University of Vienna
1999-2001	Research assistant at the Department of Radiology, Division of Cardiovascular and Interventional Radiology, Medical University of Vienna
6/2000	Graduation with the doctoral thesis “Simon Nitinol Inferior Vena Cava Filters. Effectiveness and Complications” at the Department of Radiology, Division of Cardiovascular and Interventional Radiology, Medical University of Vienna
2002-2008	Residency at the Department of Radiology, Medical University of Vienna
02/2008	Board Certified Radiologist
2008 - 2013	Staff Radiologist at the Division of Cardiovascular and Interventional Radiology, Department of Biomedical Imaging and Image-Guided Therapy, Medical University of Vienna
2013 – to date	Vice Director Division of Cardiovascular and Interventional Radiology, Department of Biomedical Imaging and Image-Guided Therapy, Medical University of Vienna
10/2011	Associate Professor of Radiology, Habilitation treatise “Coronary Stent Imaging by Computed Tomography using a newly developed Chest/Heart-Phantom”
10/2011	EBIR – European Board of Interventional Radiology
10/2011	EBCR – European Board of Cardiac Radiology
2012 – 2014	MBA Healthcare Management, WU Executive Academy

Specialization:

Cardiovascular Imaging (CT and MRI) and **Oncological Imaging** (Ultrasound, CT, MRI, PET-CT, PET-MRI)
Interventional Radiology - Broad spectrum of vascular and non-vascular interventions

- **Vascular Diseases** (for example treatment of arterial occlusive disease, chronic or acute aortic dissection, aneurysms of the aorta or other vessels, acute stroke)
- **Oncological Diseases** (for example transarterial chemo- or radio-embolization of the liver, pre-surgical or palliative embolization of hyper-vascularized tumours, portal-vein embolization, percutaneous trans-hepatic biliary drainage (PTBD), CT-guided radiofrequency or microwave ablation of tumours)
- **Different Benign Diseases** (for example uterine fibroid embolization, prostate embolization in benign prostate hyperplasia, treatment of pelvic congestion syndrome or varicocele, vascular malformations)
- **Pain Management** (for example CT-guided infiltration of the spine and other regions)
