CURRICULUM VITAE

Personal data

born: 11. 12. 1964 in Linz/D, Austria

Citizenship: Austria

Academic education

1984-1989: University Graz, studies in biology (zoology)

1989-92: Master degree at the Institute of Medical Physics and Biophysics/Graz
"Expression and Regulation of voltage activated Na⁺ channels by
protein kinase A in *Xenopus* oocytes"

1992-1995: Ph. D at the Institute of Medical Physics and Biophysics/Graz: "G-
protein dependent modulation of the cardiac muscle Na⁺- channel"

1995: Graduation to Dr. rer. nat.

1996: Univ. Ass. at the Department of Anaesthesia, General Intensive Care
and Paintherapy, Medical University Vienna

since 1.5 . 2006 Assistant Professor at Clinical Department of Special Anaesthesia and
Paintherapy

2014: Habilitation

Study visits

1989/1990: University of Tel Aviv/Israel, Institute of Physiology (Prof. N. Dascal)

1996: University of Ulm/BRD (Prof H. Brinkmeier)

Main areas of research

Electrophysiology, Ca²⁺ signaling, skeletal muscle research, malignant hyperthermia
